Newest Break through in Alfalfa Breeding

Stealth SF will recover 10-30% faster than present "fast recovery" alfalfas. This will result in earlier harvest times, which in turn will make second and third alfalfa cuts possible. This additional production when coupled with the high overall feed quality that **Stealth SF** will provide is invaluable to any livestock feed producer.

- Exclusive to Northstar Seed

Actual image and size of seed 200,000 seeds/lb.
