Premium Quality Hay/Pasture Grass

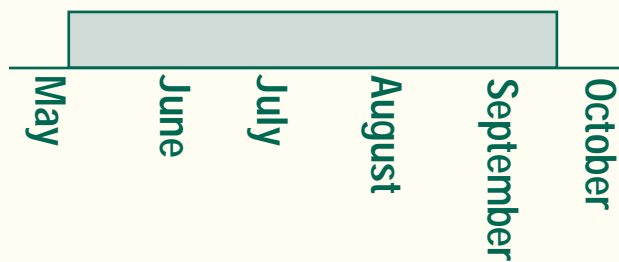

- Excellent persistence in moist or periodically flooded soils
- Produces high quality feed on moderately saline soils
- Produces excellent tonnage in both pasture and hay mixes
- Exceptional regrowth late in the season makes it well suited to fall grazing or stockpiled forage
- Forage quality and palatability is maintained even as the grass reaches maturity
- Basal leaves (similar to meadow brome) make the forage very leafy and competitive with other grasses and weeds
- Exclusive to Northstar Seed

Actual image and size of seed 225,000 seeds/lb.
