Hay

Rancher's Hay Max – Adaptability. A very good blend that will deliver high yield potential under good fertility and moisture conditions.

- 40% Fleet Meadow Bromegrass
- 30% Carlton Smooth Bromegrass
- 30% Ranchers Choice Brand Alfalfa

Maxi – High production blend for producers wanting a high performance alfalfa with timothy. Express Timothy has increased tolerance to low lying areas, and will assist in curing the swath.

- 90% Alfalfa Blend 10-5
- 10% Express Timothy

Premium Hay Max – Our best selling hay mixture that includes Express Timothy, our high quality leafy timothy, and Alfalfa Blend 10-5, our premium alfalfa blend. This blend delivers a multiple-cut hay stand under good management and soil conditions.

- 65% Alfalfa Blend 10-5
- 30% Fleet Meadow Bromegrass
- 5% Express Timothy

Saline Hay Max ENHANCED – For soils that are demonstrating early signs of salt stress. Has tolerance to increased moisture conditions.

- 40% Courtenay Tall Fescue
- 40% Rugged ST Alfalfa
- 20% Carlton Smooth Bromegrass

Lowland Max – Ideally used in areas of poor drainage for hay or pasture.

- 50% Courtenay Tall Fescue
- 30% Marathon Reed Canary Grass
- 20% Express Timothy

In addition to Northstar Seed's excellent standard forage and grass seed blends, Northstar will custom blend seed to your specific requirements. Ask for details today.
